Western Area Power Association 2023 Access Road Improvements.....\$652,220

DIFFERENTIATORS

Over 25 years in the site work/construction industry. Our company originated performing site work, excavation, and earth moving. Work has expanded into heavy civil construction projects: roads, mining & rock crushing (mobile), paving, concrete, levees, subdivision development, building pads, fencing, and fire response of which we self- perform 80% of the labor. We have experience working as a prime with WAPA, Forest Service, BOR, BLM, NPS, Federal Highway Administration, HCAI (OSHPD), and the CA State Fire Marshall; and as a subcontractor with the Army Corps of Engineers. **In 2024 we expanded our capabilities by purchasing a Concrete Batch Plant, now providing high quality concrete throughout Modoc County, CA.**

Please See Next Page for More Project Photos.

Lassen NPS Replace Failing Culverts \$642,715

Project included historic rock wall preservation.
